Play it safe!

Always use JOST original spare parts to guarantee safety on the road. Always check our packaging with QR code and forgery-proof hologram when purchasing JOST original spare parts. This ensures that you are really receiving JOST quality! We recommend only using the screws once to ensure the highest level of safety.

Accessories

Wear limit gauge – J 1027

- A test gauge for everything – not only for the fifth wheel coupling locking mechanism, but also for the king pin
- Simplifies the wear and tear examination and saves time
- Lightweight and easy to handle
