

Lubrication system:
Protected under the fifth wheel plate.

www.jost-world.com

The central lubrication system for fifth wheel couplings

Never lubricate by hand again

- LubeTronic 5Point is a central lubrication system for fifth wheel couplings
- The constantly emitted grease provides reliable lubrication for the fifth wheel coupling plate and the lock jaw.
- The lubricant dispersion can be set for long distance traffic or construction site.
- environmentally friendly and low-consumption due to automatic dosing

Simple and safe

- Sufficient lubricant for about 1 year
- Electronic fill level control with an LED display
- Refillable using lubricating nipples

Only JOST lubricant refill should be used to ensure safe operation in all operating conditions!

JSK with LubeTronic 5Point

Technical Specifications

Sensor coupling system in accordance with the ECE R55-01, TÜ.EGG.133-09, DIN 74081, ISO 3842, ECE R10. directives/standards.

The scope of delivery includes the fifth wheel coupling plate with LubeTronic as well as a connection cable.

Only JOST lubricant refill should be used to ensure safe operation in all operating conditions!
The guarantee excludes the use of other types of grease!

Other models available on request.

Explanations

ZL / Handle length

J = Long handle

K = Short handle

Spare parts*

SKE 006250200	LubeTronic 5Point short connection cable
SKE 005680000	Long connection cable for LT5P
SKE 005680100	Short connection cable for LT5P
SKE 005670000	Grease (refill set, 2 cartridges)
SKE 007090000	Grease (25 kg barrel)

*LubeTronic 5Point spare parts are not suitable for retrofitting

SKE 007 090 000

SKE 005 670 000
